

# Steel Strapping

Trusted Brand for over 100 years

**Apex**

*Regular Duty Steel Strap*

- Low carbon steel
- Superior edge conditioning and coating helps straps slide over packages and promotes safe operation
- "Smooth" edges eliminate burs and reduce strap debris getting caught in feedwheel strapping tools

**Apex Plus**

*Regular Duty High Strength Steel Strap*

- Low carbon steel
- Superior edge conditioning and coating helps packages slide over rough edges and promotes safe operation
- A value option for regular duty steel strapping, providing higher break strength with a higher gauge.

**Magnus**

*High Tensile Steel Strap*

- Medium carbon steel
- Heat treated: Signode process that combines controlled physical properties with high strength and excellent shock resistance.
